- **Operating System:** Windows 10, Windows 8 or Windows 7 SP1 (Professional, Enterprise or Ultimate licenses)
- **Required Windows Updates:**
 - Microsoft Visual C++ 2010 Redistributable (x86) 10.0.30319
 - Microsoft Visual C++ 2010 Redistributable (x64) 10.0.30319 – (Windows 64-bit Only)
 - Microsoft Visual C++ 2013 Redistributable (x86) 12.0.30501
 - Microsoft Visual C++ 2013 Redistributable (x64) 12.0.30501 – (Windows 64-bit Only)
 - Microsoft Visual C++ 2015 Redistributable (x86) 14.0.23026
 - Microsoft Visual C++ 2015 Redistributable (x64) 14.0.23026 – (Windows 64-bit Only)
 - Platform Update KB2670838 (Windows 7 Only)
- **Hard Drive:** 500MB of free disk space.
- **Graphics:** OpenGL 3.0 and higher
- **RAM:** 4GB
- **Processor:** 5th-generation Core i5 quad-core or higher
- **Network:** Hard-wired connection when utilizing IP devices.
- **Premier Only:** Recommended HDMI, DVI or VGA output (for Secondary monitor display output.)

N.B:

We advise that the computer/s and computer monitor/s should be sourced locally so the customer receives local warranty and support. This also saves on shipping costs.

CueiT's max device count over IP is 6; this count includes CueBs, openCueBs and IP monitors prompting from a single CueiT instance at one time. Any more without an advanced network may result in reduced prompt quality.
